

News Release

CubelQ Electronic Signature Technology at Natural Gas Distribution Services Company

[EN] Athens, GR, June 2nd, 2021 - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions announces that CubelQ's electronic signature technology has been selected by one of the **largest Greek Natural Gas Distribution Corporation**.

During onboarding of new customer process but also during customer life-cycle there are several documents that have to be filled and signed. Electronic signing technology provides several benefits to organization such as process execution without interruption and document management and storage on full electronic mode that increase efficiency and lower operating cost.

The customer founded in 2016 is acting as Operator of the Natural Gas Distribution Network within the geographical regions of Macedonia and Thessaly. Its activities include the construction, maintenance, operation, management and general usage of the Natural Gas Distribution Network in the aforementioned geographical areas to home consumers as well as corporate and manufacturers.

CubelQ and signotec electronic signature technology have been selected by one of the largest Greek Natural Gas Distribution Corporation to provide a full electronic signature solution including **signature pads**, **signature management software** and **integration services** for a paperless document management project which manages contracts, declaration and service applications documents signing.

Signature pads that are specially developed and manufactured by signotec, have a large number of RSA security mechanisms and are characterized by their longevity and simple handling. Signature pads together with the signature software capture and stores legally compliant, advanced electronic signature that complies with the specifications of the ISO standards and eIDAS regulations.

CubelQ's electronic signature technology is presented at <http://esign.cubelq.gr>
